Education

Banasthali Vidyapith — Newai, Rajasthan
B.Tech, Computer Science (Artificial Intelligence); CGPA: 8.0+ — *2023 – 2027*

Sophia Girls Sr. Sec. School — Kota, Rajasthan
Class XII (CBSE) – 2023 ; Class X (CBSE) – 2021

Experience

Algorithmic Trading Intern — May 2026 – June 2026
Rajasthan Technical University — *Rajasthan*

- Developed a Python-based multi-stock screening system using the ICICI Direct Breeze Connect API for live analysis of 5–10 stocks simultaneously
- Designed a weighted signal engine using 5 methods—RSI, Stochastic, VWAP, and bullish candlestick patterns—to generate BUY/SELL/WAIT signals
- Refined scoring logic and handled API payloads and runtime edge cases while debugging live data workflows

Projects

Stock Market Screener | *Microsoft Excel* — 2026

- Built an Excel-based screening framework for NIFTY 200 companies using OHLC, LTP, Stochastic, and volume-intensity data for comparative analysis
- Calculated and categorized candlestick patterns including Hammer, Bullish Engulfing, Morning Star, and Blended Hammer
- Consolidated indicators and pattern outputs into a structured screening table for faster stock comparison and pattern identification

HireMind – The Smarter Way to Hire | *MERN Stack, WebRTC, Socket.IO, Groq API* | GitHub — 2025

- Built a MERN-based interview platform with an AI interviewer powered by Groq's LLM and real-time NLP response analysis using WebRTC and Socket.IO
- Integrated Web Speech API and face-api.js for voice interaction and eye-contact tracking; implemented JWT and bcrypt for secure authentication

Crowd Sense – AI-Driven Crowd Safety | *Python, OpenCV, Streamlit* — Hack With Rajasthan, 2025

- Developed a real-time crowd analytics system using YOLOv8 and OpenCV to detect people and monitor density and movement patterns
- Built a Streamlit dashboard with density heatmaps and Twilio alerts when 5+ people were detected clustering in a zone

Technical Skills

Programming: Python, C, Java
Databases: SQL, MySQL, MongoDB
Core Concepts: OOPs, DSA, DBMS, Operating Systems, Computer Networks, Software Engineering, AI/ML
Data Analysis: Microsoft Excel, Power BI
Tools: GitHub, VS Code, Canva

Certifications

- Microsoft Excel – Udemy (2025)
- TCS iON Career Edge – Young Professional (2025)
- Hack With Rajasthan – Devnovate (2025)
- Revive & Thrive – E-Cell, Banasthali Vidyapith (2024)
- Microsoft Ideathon – Participation (2024)
- Bobble AI Hackathon – Participation (2024)

Extracurricular Activities

Design Sub-Core Member – Mayukh Tech Fest (2025)
Technical Team Member – Mayukh Tech Fest (2024)
Volunteer – National Service Scheme (NSS)
Technical Team Member – German Events
